**AUCTION #55**

**Michigan State Numismatic Society's  
Annual Fall Convention  
Hyatt Regency Hotel  
Dearborn, Michigan**

**NOVEMBER 25-26, 1983**

### **Lot Inspection**

Lots will be on view during the bourse hours of the Michigan State Numismatic Society's Annual Fall Convention on Friday from 10 a.m. until 8 p.m. and on Saturday from 10 a.m. until 5 p.m. In our East Lansing office, lots may be inspected by appointment during the two weeks preceding the sale during regular office hours.

### **Phone and Mail Bidding**

Telephone bids will be accepted prior to the days of the sale at our office (517) 332-8581 and on the day of the sale at the Hyatt Regency Hotel (313) 593-1234. All phone bids must be confirmed in writing. To insure that your mail bids are entered, please plan to have them arrive by November 23rd. The interruption of mail service on November 24th for Thanksgiving should be noted.

### **Lot Information**

If you wish additional information on any lot, please call or write. We can furnish photos of nearly all lots upon request at a charge of \$1 per item (not lot). Estimates are published for your convenience. They represent our general impression of market prices at the time the lots were cataloged. Prices may actually go higher or lower. We have made every effort to be accurate in grading. You may feel confident that the condition of each lot is as described.

### **Subscriptions and Prices Realized**

Prices realized are available approximately five weeks after the closing date at \$3 each or \$15 by annual subscription (Europe and Latin America \$20; Africa, Asia and Oceania \$25). An annual subscription by first class or air mail will include a minimum of five catalogs.

SALE NUMBER 55  
CLOSING DATE  
November 25 - 26, 1983

**TERMS OF SALE**  
(Please Read Carefully)

1. BIDS BY MAIL, PHONE OR TELEX will be accepted until the closing date. All phone bids must be confirmed by mail. All lots are sold to the highest bidder. Bids are treated as LIMITS. Bids are reduced where competition permits to within 5% of the second highest bid. In the case of tie bids, the first received is normally given preference. No "buy" or unlimited bids are accepted. Bids are accepted by lot number only. No lots are broken up. Bids are only executed in even dollar amounts.
2. This sale is NOT an approval sale. All material offered is guaranteed genuine and as described. Cataloging errors will be cheerfully and promptly corrected. FLOOR BIDDERS MAY NOT RETURN ANY LOTS. All claims for adjustment by other bidders must be made within five days of receipt but in no case more than 45 days after a sale. After that time, we will have made settlement with our consignors. Lots are not shipped until paid for, therefore, late payment may negate a return privilege.
3. Successful bidders are required to pay the full invoice amount before lots are delivered unless an open account has been established. An open account is a privilege and not a right. First rate credit references or a 25% deposit are necessary to assure entry of your bids. Any portion of such a deposit not used will be promptly refunded after the sale.
4. All auction lots will have a buyer's fee of 10% which is waived on invoices paid within 30 days of the sale closing date. Floor bidder accounts must be settled on the day of the sale to obtain the waiver of the buyer's fee. Additionally, 2% monthly interest is charged on accounts 30 days past due beginning from the sale date. If any awarded lots are still on hand in our office without a deposit 30 days after a sale, they will automatically be offered to the underbidders and the difference in price will be billed to the top bidder. Late payers will not receive future catalogs.
5. TERMS OF THIS SALE ARE STRICTLY CASH AND MUST BE PAID PROMPTLY IN U.S. FUNDS. Payment should be made immediately upon receipt of the invoice. Payments from foreign accounts must be made in U.S. Dollars by International Check drawn on a U.S. bank or by wire transfer to the account of Joseph Lepczyk, c/o East Lansing State Bank, Account Number 04023353-01. As a convenience, invoices may be charged to VISA or MasterCard accounts provided the purchaser agrees to pay an additional 2½% handling charge. Please supply account number and expiration date.
6. POSTAGE, INSURANCE and/or handling fees are added to all shipments. All lots to be mailed to addresses not in the United States of America or its Territories, are charged an additional 1% insurance fee unless insurance is provided by the bidder. Overseas bidders must supply full detailed shipping instructions and agree to all terms as listed herein before shipment is made. We normally use registered air mail with return receipts on our overseas shipments.
7. Sales Tax is added to lots delivered in Michigan unless a valid resale number is presented.
8. TITLE to all lots remains with the cataloger until payment in full is received. The auctioneer reserves the right to accept or reject any or all bids at his discretion.

### The George Sobin Collection of French Decimal Coinage Napoleon I (1803 - 1815). Part One: Gold 20 and 40 Francs

We are pleased to offer in two parts, the collection of the French coinage of Napoleon I formed by George Sobin, whose collection of French ecus was cataloged and auctioned by my firm in March 1977, Sale Number 20. The Napoleonic decimal series forms a group of issues with great historical interest, and to the collector it poses a formidable challenge, as it includes issues ranging from very common to exceedingly rare and in a few cases to those that have probably not survived at all!

The series includes all of the regular French issues in the name of Napoleon I as Premier Consul and Emperor extending over the Period An XI (1803) to 1815. Coins were produced at 18 mints (13 domestic and five so-called foreign) in nine denominations although not all mints struck all denominations. The total number of significant varieties is thought to approach 850, however intensive study of the series indicates that 50 or perhaps as many as 100 of the once existing varieties may not have survived. Survey of the literature suggests the difficulty in assembling a representative collection of the series.

The largest collection previously to appear for sale was cataloged by Jacques Schulman in Amsterdam in 1925 and included 290 varieties. The famous Farouk Collection dispersed in 1954 contained approximately the same number but was cataloged too poorly to be more precise. The third largest was the Sidney Reilly Collection sold by Sotheby's in 1921 numbering 213 varieties. The Shepard Pond Collection sold at mail bid by Gans and Grunthal in 1948 was the largest collection to appear in the United States. It contained 183 varieties. Curiously, the largest group ever offered in France itself seems to have been the Dewamin of 1901 incorporating a mere 125 varieties.

Towering above these published collections is one known only indirectly by inference. This is the collection formed by Monsieur Thys, a Belgian collector of the 1930's who is cited as the authority on the Napoleonic issues by Guilloteau in his well known opus: *Monnaies Francaises* of 1942. Based on a want list issued by Thys in 1934, it appears that his collection of the Napoleonic regular issues numbered about 600. Regrettably, no definitive description of his collection is known to exist nor is any clue to its eventual fate. It apparently was dispersed without a record. Thys died in the late 1930's, and the true extent of his collection may never be known. Nevertheless, the "Thys Want List" remains as a valuable guide to the true rarity of the various issues. Any variety that Thys lacked must be regarded as genuinely rare even though the reported mintage in some cases would suggest otherwise.

The Sobin Collection, Parts 1 and 2, will include about 620 specimens at least equaling the reputed scope of the Thys Collection. The gold section below numbers 93 of the approximately 108 varieties believed to exist.

## HOT AIR PAGE

Our recent New York auction was successful due to an excellent response by mail bidders with over 80% of the lots being won by mail bidders. We noticed an increased interest in Ancients, Gold, British, German and Russian coins. There was increased interest in quality material. The floor response reaffirms my impression about most auctions on the East and West Coast; the Midwest is a better market area both in prices and floor attendance. The big floor auction sales on either coast are largely dependent on out of town bidders to achieve prices above the wholesale level. Most of the local "big city" collectors and dealers typically do not bother attending any one of the numerous major local sales. Consignors are realizing and accepting that a sale in New York City or Los Angeles may have status appeal but does not automatically yield higher returns. In fact, generally quite the opposite occurs.

This current auction has exceptional offerings in the U.S., Gold, English and British Commonwealth sections. We are also pleased to offer for sale, the George Sobin Napoleon I Gold Collection, a significant English crown collection and a major world crown collection. The entire sale is unusual in the diversity of excellent quality rare coins from around the world. Many of the lots either have no auction records or have not appeared for sale in 20 years or more.

We currently are looking for major consignments to our sales early next year. Our schedule is published on the inside cover of this catalog. Please keep this auction house in mind when you seriously consider selling your collection or part of it. On major collections, I will personally travel to inspect them. On material for which you have overpaid, it may well be to your advantage to sell it now and use the loss as a tax write off. Also having handled many estates, I suggest that you leave instructions with your family or in your bank box for the disposition of your collection. I have seen too many cases where important valuable collections were sold at fractions of their true value, tossed out with the rubbish, sold at auction by the wrong firm with no reputation or mailing list or auctioned by a firm with no sense of responsibility or concern for the consignor. For better or worse, the numismatic auction business is more than a business to us. Call or write me when you want to discuss consigning.

For future sales, we will be emphasizing more high quality world, Canadian and U.S. coins and de-emphasizing modern proof sets, medals, foreign paper money and bulk lots. Our mail bid following for U.S. material is excellent. Additionally, we have the best mailing list and reputation for handling world coins of any auction house on the American continent – just ask our competitors. When you require superb professional service for auctioning your collection, see us – you will not get hot air.

The DealerPac software programs from MarketNet Technologies, Inc. will be totally functional by the end of November. We will be demonstrating this and CENTS – The Complete Electronic Numismatic Trading Systems – at the Toronto International Coin Fair, November 18 - 20; this MSNS Convention, and the FUN Show in January. I am considering the idea of posting starting bid information for the MSNS auction on CoinTalk.
